

DeltaCare

Please read the following information so you will know from whom or what group of provider dental care may be obtained.

AN ECONOMICAL APPROACH TO DENTAL CARE

In an age of rising health care costs, Delta Dental of Virginia (“Delta Dental”) offers an alternative for your family’s dental care needs — economically and conveniently through the DeltaCare program. This program was founded on the principle of delivering quality dental care and preventing dental problems before they start.

Delta Dental has contracted with a network of private dentists. A listing of these dentists is enclosed. This network of DeltaCare dentists is composed of established dental practices. As an enrollee in the DeltaCare program, you select a dentist from the DeltaCare panel dentist listing for your family.

Once enrolled, you can change your DeltaCare panel dentist during your group’s annual enrollment period if you are not satisfied with your DeltaCare panel dentist, his/her office is no longer convenient or if your family status changes. You must notify Delta Dental in writing before the 15th of the month if you wish the change to be effective on the 1st of the following month.

• ADVANTAGES

No Claim Forms for Most Services

The DeltaCare panel dentist you select provides all your general dental services. Generally, there are no claim forms to complete and you do not have to pay a percentage of the dentist’s usual charges.

No Deductibles

In the DeltaCare program there are no required deductibles to pay, so your benefits begin immediately.

No Dollar Limit of Dental Benefits

No annual benefit maximum for dental services provided by your DeltaCare dentist.

No Pre-Existing Conditions Restricted

Pre-existing conditions are not excluded in the DeltaCare program, this means you can begin receiving services immediately. **One exception:** work in progress. Some dental services require multiple visits. If a service is started prior to enrolling, it is considered work in progress. Examples of work in progress include: orthodontics, root canal therapy, crowns and bridges.

Prepaid Plan Saves on Dental Costs

Your out-of-pocket savings are substantial. You know prior to treatment exactly what you will have to pay. This aids in better fiscal planning for you and your family.

Quality Review of Dental Providers

Delta Dental will conduct on-site audits of DeltaCare dentists to insure that established standards of quality are maintained.

Specialty Services

DeltaCare offers services in dental specialty areas. These include periodontics (treatment of diseased gums and bone), endodontics (root canal therapy), and oral surgery procedures. A written referral is typically required.

Remember to always contact your selected DeltaCare dentist for all your dental needs. **NOTE: dental services you receive which are not performed by your DeltaCare panel dentist or specialist services received without prior authorization by Delta Dental are not covered by the DeltaCare program.**

• EMERGENCY SERVICES

You are also covered for out-of-area dental emergencies. “Out-of-area” means you need covered dental services and you are 35 miles from your DeltaCare dentist’s office. **NOTE: a benefit maximum does apply to emergency services.**

• HOW IT WORKS

When you enroll in DeltaCare, select a dentist that participates in the DeltaCare program from the list in this packet. This dentist is now the center for all of your dental needs.

After you have enrolled, you will receive an Evidence of Coverage booklet that completely describes the benefits of your dental plan as well as a DeltaCare membership card. To receive all necessary care covered by the plan, call your selected panel dentist to make an appointment.

• WHO CAN JOIN

If you meet the employer’s eligibility guidelines for dental coverage you can enroll in DeltaCare. You can also enroll your eligible dependents, which include your lawful spouse and unmarried children; including step-children and legally adopted children.

• SUMMARY OF BENEFITS

The DeltaCare program covers all reasonable and customary dental care (subject to the contract provisions, limitation and exclusions), provided care is rendered by your assigned DeltaCare dentist.

Except for co-payments on certain procedures, there is no cost for covered services to the primary enrollee or eligible dependent enrollee. (See Schedule A for description of benefits and copayments.)

LIMITATIONS AND EXCLUSIONS OF BENEFITS

Limitations

1. Prophylaxis is limited to one treatment each six month period (includes periodontal maintenance following active therapy);
2. Full maxillary and/or mandibular dentures including immediate dentures are not to exceed one each in any five year period from initial placement;
3. Partial dentures are not to be replaced within any five year period from initial placement, unless necessary due to natural tooth loss where the addition or replacement of teeth to the existing partial is not feasible;
4. Crown(s) and fixed partial dentures (bridges) are not to be replaced within any five year period from initial placement;
5. Denture relines are limited to one per denture during any 12 consecutive months;
6. Periodontal treatments (root planing/subgingival curettage) are limited to four quadrants during any 12 consecutive months;
7. Full mouth debridement (gross scale) is limited to one treatment in any 12 consecutive month period;
8. Bitewing X-rays are limited to not more than one series of four films in any six month period;
9. A full mouth X-ray series (including any combination of periapicals or bitewings with a panoramic film) or a series of seven or more vertical bitewings is limited to one series every 24 months;
10. Benefits for sealants include the application of sealants only to the occlusal surface of permanent molars for patients through age 15. The teeth must be free from caries or restorations on the occlusal surface. Benefits include the repair or replacement of a sealant on any tooth within three years of its application by the same DeltaCare dentist who placed the sealant.
11. Replacement of prosthetic appliances (bridges, partial or full dentures) shall be considered only if the existing appliance is no longer functional or cannot be made functional by repair or adjustment and meets the five year limitation for replacement;
12. Coverage is limited to the benefit customarily provided. Enrollee must pay the difference in cost between the dentist's usual fees for the covered benefit and the optional or more expensive treatment plus any applicable copayment;
13. Services that are more expensive than the treatment usually provided under accepted dental practice standards or include the use of specialized techniques instead of standard procedures, such as a crown where filling would restore a tooth or an implant in place of a fixed bridge or

partial to restore a missing tooth, are considered optional treatment;

14. Composite resin restorations to restore decay or missing tooth structure that extend beyond the enamel layer are limited to anterior teeth (cuspid to cuspid) and facial surfaces of maxillary bicuspids;

15. A fixed partial denture (bridge) is limited to the replacement of permanent anterior teeth provided it is not in connection with a partial denture on the same arch, or duplicates an existing, non-functional bridge and it meets the five year limitation for replacement;

16. Stayplates, in conjunction with fixed or removable appliances, are limited to the replacement of extracted anterior teeth for adults during a healing period or in children 16 years and under for missing anterior teeth;

17. Benefits provided by a pediatric Dentist are limited to children through age seven following an attempt by the assigned DeltaCare Dentist to treat the child and upon prior authorization by Delta Dental, less applicable copayments. Delta Dental will consider exceptions for medical conditions, regardless of age limitation, on an individual basis.

18. Porcelain crowns and porcelain fused to metal crowns on all molars are considered optional treatment;

19. Fixed bridges used to replace missing posterior teeth are considered optional treatment when the abutment teeth are dentally sound and would be crowned only for the purpose of supporting a pontic. A fixed bridge used under these circumstances is considered optional dental treatment. The enrollee must pay the difference in cost between the DeltaCare dentist's plan allowance for the covered benefit and the optional treatment, plus any copayment for the covered benefit.

Exclusions

The following are not Covered Benefits under any circumstance **unless specifically identified** as a covered benefit in the **Schedule A – Description of Benefits and Copayments**:

1. General anesthesia, IV sedation, and nitrous oxide and the services of a special anesthesiologist;
2. Dental procedures performed for purely cosmetic purposes;
3. Dental services for injuries or conditions that may be covered under worker's compensation or similar employer liability laws; benefits or services that are available under any federal, state, or municipal government program (subject to the rules and regulations of those programs) or from any charitable foundation or similar entity; also services provided to the enrollee without cost by any municipality, county or other political subdivision;

4. Charges by any hospital or other surgical or treatment facility, or any additional fees charged by a dentist for treatment in any such facility;
5. Treatment of fractures, dislocations and subluxations of the upper or lower jaw. This includes therapy, surgery and appliances to correct temporomandibular joint (TMJ) dysfunction, problems, and/or occlusal disharmony (including occlusal equilibration).
6. Loss or theft of fixed and removable prosthetics (crowns, bridges, full or partial dentures);
7. Dental services started or provided before the date the enrollee is enrolled under the EOC. Also, except as otherwise provided in this EOC, benefits for a course of treatment that began before the enrollee is enrolled under this EOC.
8. Except as otherwise provided in this EOC, dental services provided after the date that the individual is no longer enrolled or eligible for coverage under this EOC.
9. Any service not specifically listed as a covered benefit in **Schedule A — Description of Benefits and Copayments**;
10. Correcting congenital or developmental malformations, including replacement of congenitally missing teeth, unless restoration is needed to restore normal bodily function (unless mandated by state law);
11. Cysts and malignancies;
12. Prescription drugs;
13. Accidental injury. Accidental injury is defined as damage to the hard and soft tissues of the oral cavity resulting from forces external to the mouth. Damages to the hard and soft tissues of the oral cavity from normal masticatory (chewing) function will be covered at the normal schedule of benefits **subject to this EOC's terms, conditions, limitations, and other exclusions**;
14. Cases in which, in the professional judgment of the attending Dentist, a satisfactory result cannot be obtained or where the prognosis is poor or guarded;
15. Dental services received from any dental office other than the assigned DeltaCare dental office, unless expressly authorized in writing by Delta Dental or as cited under 'emergency service';
16. Prophylactic removal of impactions (asymptomatic, nonpathological);
17. "Consultations" for noncovered benefits;
18. Implant placement or removal of appliances placed on or services associated with implants, including but not limited to prophylaxis and periodontal treatment;
19. Placement of a crown where there is sufficient tooth structure to retain a standard filling;
20. Porcelain crowns and porcelain fused to metal crowns on all molars;
21. Restorations placed due to cosmetics, abrasions, attrition, erosion, restoring or altering vertical dimension, congenital or developmental malformation of teeth;
22. Fixed bridges used to replace missing posterior teeth are considered optional when the abutment teeth are dentally sound and would be crowned only for the purpose of supporting a pontic. A fixed bridge used under these circumstances is considered optional dental treatment. The patient must pay the difference in cost between the dentist's usual fees for the covered benefit and plan allowance for the optional treatment, plus any copayment for the covered benefit;
23. Appliances or restorations necessary to increase vertical dimension, replace or stabilize tooth structure loss by attrition, realignment of teeth, periodontal splinting, gnathologic recordings, equilibration or treatment of disturbances of the temporomandibular joint (TMJ);
24. Extensive treatment plans involving 10 or more crowns or units of fixed bridgework (major mouth reconstruction);
25. Precious metal for removable appliances, precision abutments for partials or bridges (overlays, implants, and appliances associated therewith), personalization and characterization;
26. Soft tissue management including without limitation irrigation, infusion, and any special toothbrush;
27. Diagnosis, treatment or appliances that are provided by a Dentist whose practice specializes in prosthodontic services;
28. Restorative work caused by orthodontic treatment;
29. Extractions solely for the purpose of orthodontics; and
30. Specialist services that Delta Dental has not authorized in writing in advance (except covered benefits for orthodontic services that a DeltaCare orthodontist provides).

Orthodontic Limitations

The DeltaCare dental plan provides coverage for orthodontic treatment plans provided by a DeltaCare orthodontist. The cost to the enrollee for the treatment plan is listed in **Schedule A — Description of Benefits and Copayments subject to the following**:

1. Orthodontic treatment must be provided by a DeltaCare orthodontist.
2. Plan benefits cover 24 months of active comprehensive orthodontic treatment and include the initial examination, diagnosis, consultation, initial banding, de-banding and the retention phase of treatment. The retention phase includes

the initial construction, placement and adjustments to retainers and office visits for a maximum of 24 months.

3. For treatment plans extending beyond 24 months of active treatment, the enrollee will be subject to a monthly office visit fee not to exceed \$75 per month.

4. Should an enrollee's coverage be canceled or terminated for any reason, and at the time of cancellation or termination, the enrollee or enrollee's dependent is receiving orthodontic treatment, the enrollee and not Delta Dental will be solely responsible for payment for treatment provided after cancellation or termination. In such a case, the enrollee's payment shall be based on the dentist's usual fee at the beginning of treatment. The amount will be prorated over the months until completion of the treatment and will be payable by the enrollee on such terms and conditions as are arranged between the enrollee and the orthodontist.

5. If treatment is not required or the enrollee chooses not to start treatment after the orthodontist has completed the diagnosis and consultation, the enrollee will be charged a consultation fee of \$25 in addition to diagnostic record fees.

6. The copayment is payable to the DeltaCare orthodontist who initiates banding in a course of orthodontic treatment. If, after banding has been initiated, the enrollee changes to another DeltaCare orthodontist to continue orthodontic treatment the enrollee will not be entitled to a refund of any amounts previously paid. In addition, the enrollee will be responsible for all payments, up to and including the full copayment, that is required by the new DeltaCare orthodontist for completion of the orthodontic treatment.

7. Three recementations or replacements of a bracket/ band on the same tooth or a total of five rebracketings/ rebandings on different teeth during the covered course of treatment are covered benefits. If any additional recementations or replacements of brackets/bands are performed, the enrollee is responsible for the cost at the DeltaCare orthodontist's plan allowance.

Orthodontic Exclusions

The following are not covered benefits under any circumstance **unless specifically identified** as a covered benefit in the **Schedule A – Description of Benefits and Copayments:**

1. Orthodontic services provided by an orthodontist who is not a DeltaCare orthodontist;
2. Lost, stolen or broken orthodontic appliances, functional appliances, headgear, retainers and expansion appliances;
3. Retreatment of orthodontic cases;
4. Changes in treatment necessitated by accident of any kind;

5. Surgical procedures incidental to orthodontic treatment;

6. Myofunctional therapy;

7. Surgical procedures related to cleft palate, micrognathia or macrognathia;

8. Treatment related to temporomandibular joint disturbances (TMJ);

9. Supplemental appliances not routinely utilized in typical comprehensive orthodontics, including but not limited to: palatal expander, habit control appliance, pendulum, quad helix or herbst;

10. Restorative work caused by orthodontic treatment;

11. Active treatment that extends more than 24 months from the point of banding dentition will be subject to an office visit charge not to exceed \$75 per month;

12. Phase I orthodontics is an exclusion as well as activator appliances and minor treatment for tooth guidance and/ or arch expansion. Phase I orthodontics is defined as early treatment including interceptive orthodontia prior to the development of late mixed dentition;

13. Extractions solely for the purpose of orthodontics;

14. Treatment in progress at inception of eligibility;

15. Patient initiated transfer after bands have been placed;

16. Composite or ceramic brackets, lingual adaption of orthodontic bands and other specialized or cosmetic alternatives to standard fixed and removable orthodontic appliances.

Optional is defined as any alternative procedure presented by the DeltaCare Dentist that satisfies the same dental need as a covered procedure, is chosen by the Enrollee, and is subject to the limitations and exclusions of the dental plan. The applicable charge to the Enrollee is the difference between the DeltaCare dentist's fee for the Optional procedure and the Plan Allowance for the covered procedure, plus any applicable Copayment for the covered procedure. Optional treatment does not apply when alternative choices are benefits. Questions regarding the DeltaCare dental plan should be directed to DeltaCare's Benefit Service department at (800) 862-0838.

Services that are more expensive than the treatment usually provided under accepted dental practice standards or include the use of specialized techniques instead of standard procedures such as a crown where filling would restore a tooth or an implant in place of a fixed bridge or partial to restore a missing tooth are considered optional treatment. The patient must pay the difference in cost between the dentist's usual fees for the Covered Benefit and the optional or more expensive treatment plus any applicable Copayment.

If services for a listed procedure are performed by the assigned DeltaCare Dentist, the Enrollee pays the specified Copayment. Listed procedures which require a Dentist to provide Specialist services, and are referred by the assigned DeltaCare Dentist, must be preauthorized in writing by Delta Dental of Virginia. The Enrollee pays the Copayment specified for such services.

Procedures not listed above are not covered; however, may be available at the DeltaCare Dentist's Plan Allowance.

The above procedures are performed as needed and deemed necessary by your attending DeltaCare Dentist subject to the limitations and exclusions of the program. Please refer to those sections for further clarification of benefits.

The DeltaCare Dentist shall provide emergency dental care for a Covered Benefit which is required while an Enrollee is within 35 miles of the facility of the DeltaCare Dentist. If an Enrollee requires emergency dental care and is more than 35 miles from the facility of the DeltaCare Dentist, then Delta Dental of Virginia shall reimburse the Enrollee the cost of such emergency dental care which exceeds the Enrollee's Copayment up to a \$50 maximum in a 12-month period. Emergency dental care shall be limited to listed procedures, and as described in code D9110 above: "Palliative (emergency) treatment of dental pain". Any further treatment of the cause of such emergency dental care must be preauthorized by Delta Dental or provided by the assigned DeltaCare Dentist.

*Base or noble metal is the Covered Benefit. If high noble metal (precious) is used for a crown, bridge, indirectly fabricated post and core, inlay or onlay, the Enrollee will be charged the additional laboratory cost of the high noble metal. An additional laboratory charge also applies to a titanium crown.

**Includes any adjustments for six months.

***Services include initial examination, diagnosis, consultation, initial banding, 24 months of active treatment, debanding, and the retention phase of treatment. The retention phase includes the initial construction, placement and adjustments to retainers and office visits for a maximum of 24 months. For treatment plans extending beyond 24 months of active treatment, the Subscriber will be subject to a monthly office fee, not to exceed \$75 per month.
