

**Invitation to Attend**  
***Special Education Advisory Committee Meeting***

January 10, 2016\*\*  
10:00 a.m. – School Board Office

**This month's topic:**

At SEAC's October meeting and November family event, families expressed an interest in working together to create a resource manual for parents/guardians of students with disabilities. This manual will help families new to special education understand the process and have access to the resources they need to support their children. Please join us – we need your input!

The Special Education Advisory Committee (SEAC) welcomes parents, teachers, and all who are interested in special education. Time is made available at the end of the meeting to provide support, information and/or resources to individuals with a specific concern. For more information about SEAC, visit <http://yorkcountyschools.org/parents/specialEducation/seac.aspx>

\*\*If school is delayed or closed on January 10, the SEAC meeting will be cancelled.
